DETAILED ACTION

This is in response to amendment filed 09/18/03.

1. Response to Arguments

Response to applicant's argument based on the Atkinson patent is assigned to Microsoft Corp., which is the assignee of the present application. In Section 103(c) requires that the invention was "owned by the same person or subject to an obligation of assignment to the same person" "at the time the invention was made." But Atkinson patent was patented more than a year prior to the date of the application was made. Therefore all the claims rejected under 35 USC § 103(a) are proper.
